Portfolio: github.com/DharmChaniyara/Dharm-Chaniyara_Portfolio

SUMMARY

B.Tech Computer Science & Engineering student at GSFC University with practical exposure to full-stack web development, AI-assisted development workflows, and Python programming. Completed a one-month AI web development internship at Idealfolks, Rajkot, gaining hands-on experience leveraging modern AI developer tools. Built practical projects in fraud detection (JobGuard AI), sales intelligence copilots (offline finalist at Hack Baroda 2026 with Team CODE BUSTERS), and campus academic resource platforms. Interested in software engineering, backend systems, and building useful AI-powered applications through collaborative, project-based engineering.

EXPERIENCE

AI Web Developer Intern — Idealfolks

05 June 2026 – 05 July 2026 | Rajkot, Gujarat

- Completed a one-month project internship focused on web development and AI-assisted workflows.
- Leveraged modern AI developer tools for rapid component prototyping, API design, and debugging.
- Developed responsive front-end user interfaces using HTML, CSS, and JavaScript.
- Technologies: HTML, CSS, JavaScript, AI Developer Tools

SELECTED PROJECTS

JobGuard AI — Fake Job Offer & Scam Detector

- Developed a full-stack security application to detect fraudulent job offers using OpenAI for text analysis and VirusTotal API for malicious link scanning.
- Built automated PDF text extraction using Multer and pdf-parse; designed prompt-engineered scoring model returning explainable scam indicators.
- Technologies: React, Node.js, Express, Supabase, OpenAI API, VirusTotal API

Deal Intelligence Agent — Hack Baroda 2026

- Collaborated with Team CODE BUSTERS at Hack Baroda 2026 to develop the Deal Intelligence Agent, an AI-powered sales copilot designed to organize sales knowledge and make prior deal experience useful.
- Focused on organizing deal interactions and presenting stakeholder relationships using D3.js; explored objection insights and similar-deal retrieval.
- Technologies: HTML, CSS, JavaScript, React, Node.js, Express, D3.js
- Team selected for the final offline round.

StudyShare — Campus Academic Resource Platform

- Developed a centralized academic sharing web platform for GSFC University students to access course syllabi, lecture notes, and past-year question papers.
- Designed Supabase PostgreSQL schemas, document upload pipelines, and access control.
- Technologies: JavaScript, HTML5, CSS3, Node.js, Supabase, Vercel

EDUCATION

B.Tech — Computer Science & Engineering

GSFC University, Gujarat
Currently in the 3rd semester (2025–2029).

TECHNICAL SKILLS

Programming Languages:
Python (Certified), JavaScript (ES6+), Java, C/C++

Web Development:
React.js, Vite, Tailwind CSS, HTML, CSS, Node.js, Express.js

Databases & BaaS:
Supabase, PostgreSQL, SQL

AI & Modern Tools:
OpenAI API, RAG Concepts, Prompt Engineering, AI Dev Workflows

Tools & Version Control:
Git, GitHub, Vercel, VS Code

HACKATHON & AWARDS

Hack Baroda 2026 — Offline Finalist

Selected in final offline round with Team CODE BUSTERS for Deal Intelligence Agent.

CERTIFICATIONS

Python Essentials 2
Cisco Networking Academy & OpenEDG Python Institute (Oct 2026)

Computer Hardware Basics
Cisco Networking Academy (Sep 2026)

SSIP Drone Workshop
Student Start-up and Innovation Policy, Gujarat
