DHARM CHANIYARA

B.Tech Computer Science & Engineering Student | Aspiring AI/ML & Software Developer

Vadodara, Gujarat, India | **Email:** dharmchaniyara@gmail.com | **LinkedIn:** linkedin.com/in/dharm-chaniyara-b51b9137a | **GitHub:** github.com/DharmChaniyara

PROFESSIONAL SUMMARY

Third-semester B.Tech Computer Science & Engineering student at GSFC University with practical hands-on experience in AI-assisted web development, full-stack application building, and Python programming. Completed a one-month AI Web Developer internship at Idealfolks, Rajkot, gaining practical exposure to AI-augmented development workflows. Passionate about software engineering, intelligent systems, and building high-utility web tools (such as JobGuard AI scam scanner and StudyShare academic portal). Proven collaborator in hackathons (offline finalist at Hack Baroda 2026 with Team CODE BUSTERS) and eager to contribute to innovative early-career engineering teams.

EDUCATION

GSFC University — Vadodara, Gujarat, India *2025 – 2029 | Currently in 3rd Semester*

Bachelor of Technology (B.Tech) in Computer Science & Engineering *Status: Active Undergraduate*

Relevant Coursework: Object-Oriented Programming (Java/C++), Data Structures, Web Technology, Database Systems, Computer Hardware & Basics.

EXPERIENCE

Idealfolks — Rajkot, Gujarat, India *June 05, 2026 – July 05, 2026*

AI Web Developer Intern *1-Month Verified Internship*

- Completed an intensive 1-month web development internship focusing on applying modern AI developer tools to engineering workflows.
- Built responsive front-end user interfaces using HTML, CSS, and JavaScript, ensuring cross-device adaptability.
- Leveraged generative AI tools for code prototyping, automated unit test drafting, and component troubleshooting.
- Collaborated under engineering guidance to learn full-stack project architecture and version control practices.

SELECTED PROJECTS

JobGuard AI — Fake Job Offer & Scam Detector *React, Node.js, Express, Supabase, OpenAI API*

- Built a full-stack security application detecting fraudulent employment offers via text scanning and PDF offer letter uploads.
- Integrated OpenAI API to analyze suspicious phrasing, unrealistic salary structures, and scam indicators with explainable reasoning.
- Integrated VirusTotal API for scanning embedded domain links; implemented Supabase for authentication and scan history storage.
- Live deployed on Vercel: *fake-job-offer-detector-two.vercel.app*

Deal Intelligence Agent — AI Sales Copilot *React, Node.js, Express, D3.js, Vercel*

- Developed an AI-powered sales intelligence copilot that captures deal interactions to form organizational memory.
- Competed with Team CODE BUSTERS at Hack Baroda 2026; successfully qualified for the final offline hackathon round.
- Implemented stakeholder relationship mapping using D3.js and simulated objection handling workflows.

StudyShare — Campus Academic Resource Platform *JavaScript, Supabase, Node.js, Vercel*

- Architected a centralized academic sharing hub for GSFC University students covering syllabi, PYQs, and lecture notes.
- Designed SQL schemas in Supabase for user roles, subject categorization, and secure document storage; deployed live at *study-share.vercel.app*.

Campus Copilot & DevFest Baroda 2026 Mobile Companion *TypeScript, React, Kotlin, Android*

- Contributed to Campus Copilot, an IEEE collaborative university assistant incorporating RAG retrieval and authenticated student records.
- Developed DevFest Baroda 2026 companion app in Kotlin/Android Jetpack for the upcoming GDG Baroda conference.

TECHNICAL SKILLS

Programming Languages:	Python (Certified: Python Essentials 2), JavaScript (ES6+), Java, Kotlin (Basics), C/C++
Web & Frontend:	React.js, Vite, Tailwind CSS, HTML5, CSS3, REST APIs, Framer Motion
Backend & Databases:	Node.js, Express.js, Supabase (PostgreSQL), SQL Fundamentals
AI / ML & Workflows:	OpenAI API Integration, Prompt Engineering, RAG Concepts, AI-Assisted Dev Workflows
Tools & Version Control:	Git, GitHub, Vercel, VS Code, Postman, Linux Basics

CERTIFICATIONS & ACHIEVEMENTS

- **Python Essentials 2** — Cisco Networking Academy / OpenEDG Python Institute (Oct 18, 2026)
- **Computer Hardware Basics** — Cisco Networking Academy (Sep 24, 2026)
- **Offline Finalist — Hack Baroda 2026**: Selected among top teams with Team CODE BUSTERS for Deal Intelligence Agent.
- **SSIP Drone Technology Workshop** — Student Start-up and Innovation Policy (SSIP), Gujarat / GSFC University.
